YOUR FIRST VISIT

“I don't like needles.” We hear it every week.

Most patients are surprised by how little they feel. And if you'd rather start gently, Frank also uses a needle-free muscle relaxation technique.

1 **Free consultation**

Tell Frank what’s going on. He’ll be honest about what acupuncture can and can’t do for you.

2 **A gentle first treatment**

Fine, hair-thin needles, often placed away from the painful area. Many patients feel relief in the chair.

3 **A plan that fits your life**

Convenient times, affordable prices, and stretches or herbs to support you between visits.
